REPORT.

[Recommending the disposition of certain files and papers described in the report of the Department of the Interior, dated Dec. 6, 1920.]

The Joint Select Committee of the Senate and House of Representatives, appointed on the part of the Senate and on the part of the House of Representatives, to which were referred the reports of the heads of departments, bureaus, etc., in respect to the accumulation therein of old and useless files of papers which are not needed or useful in the transaction of the current business therein, respectively, and have no permanent value or historical interest, with accompanying statements of the condition and character of such papers, respectfully report to the Senate and House of Representatives, pursuant to an act entitled "An act to authorize and provide for the disposition of useless papers in the executive departments," approved February 16, 1899, as follows:

Your committee have met and by a subcommittee appointed by your committee carefully and fully examined the said report so referred to your committee and the statements of the condition and the character of such files and papers therein described, and we find and report that the files and papers described in the report of the Department of the Interior, dated December 6, 1920, to the Sixty-sixth Congress, third session, are not needed in the transaction of the current business of such departments and bureaus and have no permanent value or historical interest.

We recommend that, as required by law, the Department of the Interior sell as waste paper or otherwise dispose of such files of papers upon the best obtainable terms, after due publication of notice inviting proposals therefor, and receive and pay the proceeds thereof into the Treasury of the United States, and make report thereof to Congress.

Respectfully submitted to the Senate and House of Representatives.
